

FAQ about Telehealth

What is it?

It's a way for your child to see a local provider without missing school. It's helpful for parents who can't get off work.

Is it free?

The telehealth program will charge your insurance just like any other doctor's office.

Can I be at the appointment?

Absolutely, we encourage parents to join us, either in person or we can do a video call if you can't leave work.

What about prescriptions?

If the provider determines that your student needs medication, they will call that in for them. If your student is considered contagious, you will be required to pick them up.
